

2nd Partner's Consultation
of the Evangelical Lutheran Church in Bavaria
São Paulo, Brazil, September 6-12, 2013

Chamber of International Commerce – ICC (ICC, *International Chamber of Commerce*)

It is an international organization that works to promote and assist international trade and globalization.

The ICC is the voice of international trade that supports the global economy as a force for economic growth, job creation, and prosperity in the commercial sector.

As national economies are now much more interwoven, government decisions today have more international repercussions than in the past.

The organization must be truly global in international trade, in order to be considered firm and confident when talking about international trade.

ICC activities range from arbitration to resolutions relating to the free market and financial system, business regulation, fighting corruption and combating commercial crime.

The ICC has access to governments of countries through their national committees. The organization is based in Paris and offers an international view of the panorama of world affairs directly affecting their operations.
